

Privacy Policy:

Who we are

Suggested text: Our website address is: <https://www.leadwithsanjay.com>

Comments

When visitors leave comments on the site we collect the data shown in the comments form, and also the visitor's IP address and browser user agent string to help spam detection.

An anonymized string created from your email address (also called a hash) may be provided to the Gravatar service to see if you are using it. The Gravatar service privacy policy is available here: <https://automattic.com/privacy/>. After approval of your comment, your profile picture is visible to the public in the context of your comment.

Media

If you upload images to the website, you should avoid uploading images with embedded location data (EXIF GPS) included. Visitors to the website can download and extract any location data from images on the website.

Cookies

If you leave a comment on our site you may opt-in to saving your name, email address and website in cookies. These are for your convenience so that you do not have to fill in your details again when you leave another comment. These cookies will last for one year.

If you visit our login page, we will set a temporary cookie to determine if your browser accepts cookies. This cookie contains no personal data and is discarded when you close your browser.

When you log in, we will also set up several cookies to save your login information and your screen display choices. Login cookies last for two days, and screen options cookies last for a year. If you select "Remember Me", your login will persist for two weeks. If you log out of your account, the login cookies will be removed.

If you edit or publish an article, an additional cookie will be saved in your browser. This cookie includes no personal data and simply indicates the post ID of the article you just edited. It expires after 1 day. Embedded content from other websites

Articles on this site may include embedded content (e.g. videos, images, articles, etc.). Embedded content from other websites behaves in the exact same way as if the visitor has visited the other website.

These websites may collect data about you, use cookies, embed additional third-party tracking, and monitor your interaction with that embedded content, including tracking your interaction with the embedded content if you have an account and are logged in to that website.

Who we share your data with

If you request a password reset, your IP address will be included in the reset email.

How long we retain your data

If you leave a comment, the comment and its metadata are retained indefinitely. This is so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue.

For users that register on our website (if any), we also store the personal information they provide in their user profile. All users can see, edit, or delete their personal information at any time (except they cannot change their username). Website administrators can also see and edit that information.

What rights you have over your data

If you have an account on this site, or have left comments, you can request to receive an exported file of the personal data we hold about you, including any data you have provided to us. You can also request that we erase any personal data we hold about you. This does not include any data we are obliged to keep for administrative, legal, or security purposes.

Where we send your data

Visitor comments may be checked through an automated spam detection service.

We are dedicated to safeguarding your personal information.

We only collect the bare minimum of information about you necessary to provide you with a satisfactory service. This policy outlines the types of procedures that may lead to the collection of personal information about you. We have the right to gather that information based on your usage of our website.

Information Amassed

Depending on the sort of transaction you enter into, we may collect any or all of the information you give us, including your name, address, phone number, and email address, as well as data on your usage of the website. Other information that may be required to process a request from time to time may be gathered as noted on the website.

Modifications to this Policy

Any modifications to our Privacy Policy will be posted here and will take precedence over current version. Any changes to our policy will be communicated to you in a timely manner. To be safe, we recommend that you read this document each time you visit the website to check that it still meets your approval.

Refund & Cancellation Policy:

- We have designed a reasonable cancellation and refund policy in order to provide the greatest quality and client experience to our consumers.
- We break down each project into stages to make it more manageable.
- Every project starts with a thorough investigation/analysis and the drafting of a scope of work document. This is done to ensure that both parties understand the work that needs to be done and to eliminate the possibility of project cancellations, reversals, or conflicts.
- Because each milestone and module takes time to complete, there will be no refunds for work that has already been completed.
- If a project is mutually cancelled, the customer retains ownership of all finished work and any payments made for future development are worthless. There would be no reimbursement of any past payments or deposits.
- Projects that are in the middle of a milestone phase are not eligible for partial refunds.
- No cancellations will be accepted for services provided by our marketing team on special occasions. These special offers are only available for a short time and cannot be cancelled. Although digital marketing packages are non-refundable, the client may cancel with 30 days' notice in writing.
- For projects that have been abandoned or are dormant for more than 30 days, we do not issue refunds on deposits or fees.
